Fenway Park, Boston, Oct. 12.—The Athletics, champions of the American league twice vanquished by the Boston Braves went to grips today with the National league winners in the third battle of the world's series. Some 35,000 wildly enthusiastic spectators saw the Athletics make a stand on the Boston field to avenge off a third defeat, which would all but end their chances of bearing off the world's championship.

Eddie Murphy of Athletics, Who Hit Like a Demon in Today's Game.

The Bostonians, inspired by thousands of the home folks that filled Fenway park tried for a third victory with the same keen pursuit of conquest that enabled them to twice topple over the American leaguers in their own ball-wick.

"We've got the jump on the Athletics and they never can get up a speed enough to catch us now," said Manager Stallings. "They have never seen Tyler in action and Rudolph is ready if we need him today. Bender can't come back so soon, and if he does we will beat him again. There is only the Athletics' second string artillery to stop us."

"We have not been hitting," said Captain Ira Thomas of the Athletics, "and any team looks feeble when it is not getting in solid blows. Watch us today. Our club is not the one to take a third straight beating."

Boston Baseball Crazy. Hundreds swarmed all night at the gates of Fenway park. Within an hour

Boston, Mass., Oct. 12.—"Four straight, that's our aim," said George Stallings this morning. "And I believe my boys will make good." "I have nothing to say except that it is necessary for a team to win four games before they are acclaimed champions of the baseball world," said Connie Mack.

Even the Braves cannot dispute Connie in this case. There are fans here from every state in the union, from many sections of Canada, two or three from Europe and one from Australia—George Ellsworth.

One Boston fan bet \$100 against \$2,000 in Philadelphia on the night before the first game that the Athletics would not win one game of the series. He is confident of cashing.

The Athletics held a council of war here Sunday night in which they mapped out plans for today's battle. Their defeats have not disheartened them and they were confident that they would win today. Those who think that Deal did plan to steal third in the ninth inning Saturday are greatly mistaken," said Johnny Evers, the Braves' captain. "To some it looked as if Deal was caught napping off the bag and was forced to may a try for third. But that isn't so. Deal pulled the same stunt in the second inning of that game and he's leaguer. He gets fifteen or twenty feet off the bag and pretends to be pulled it all year in the National league. He wants to draw a throw from the catcher. And every time he does he's off for the next base with the swing of the catcher's arm."

After the unreserved stands were flung open every seat was taken and scores lined the backfield fences and pressed against a guard fence erected around the rear of the outfield. Once the crowd broke down the wooden barrier and mounted police had to drive the people back into the enclosure. A force of carpenters repaired the fence. All this was three hours before game time. When the crowd was not surging, it was cheering. Outside the fences unable to gain admittance, thousands clamored vainly to get in. The gates were closed however, and barred by the police. An Indian summer day was furnished for the contest. The sun glowed brightly and the air was balmy.

The playing field was flint, dry and lightning fast. Betting was 10 to 7 on the Bostonians to take the series. Wagers at these odds were made at noon. Betting practice was lively and the long drives of the home club were vigorously cheered. Gowdy, heavy hitter of the first game, smashed a ball into the temporary stands while Connolly, Baker and Collins sent smoking liners toward the left field stands, where the spectators tried to get the balls as souvenirs.

Fielding practice was mechanically perfect and executed with a snap and brilliancy that stirred the spectator to salvos of applause. Maranville and Evers, Barry and Collins made chain lightning pivot plays and scintillating scoops and stops.

**Cococham in Practice.**—The Bostonians were served in batting practice by the Southerners, Cotte and Cococham, a right-hander. While this was going on Pitcher Rudolph and Shortstop Maranville talked over the plays in the series with Eddie Collins, Philadelphia's second baseman. Rudolph took part in batting practice along with the left-hander, Tyler.

The Boston Royal Boosters, led by former Mayor Fitzgerald and a score of "fans," dressed in Indian costumes and a brass band playing the battle song "Tessie," paraded around the field and took their section reserved for them back of the left field.

Before play was called Capt. Evers of the Boston Nationals was presented with an automobile in recognition of his being the most valuable player in his team in the National League. Ira Thomas went into the box and pitched during the Athletics' work out. It looked as though Rudolph was to face them today. Strunk has been suffering from a bad finger during the series and it was said Walsh would play in center field in his place today. Joe Bush and Bender warmed up in front of the Athletics' bench while Tyler and Rudolph worked out for Boston.

Manager George Stallings was presented with a diamond stick pin and a gold ball by Mayor Curley of Boston on behalf of the city government. Captain John Evers was presented with a gold bat by Mayor Curley.

The umpires conferred with Captain Ira Thomas and Captain Evers at the order and looked over the batting order and Gowdy batting in eighth place in place of Deal.

Klem gave the decisions behind the plate and Dineen on the bases. Hildebrand went to left field and Byron to right field.

Weather conditions could not have been better. A bright sun developed an at. sphere of summer tempered somewhat by a cooling breeze from the southwest. Thousands of persons moved on Fenway park this morning

Bush, the Athletics' Hero of Last Season, Is Mack's Hope in Today's Battle.

to join the hundreds who had held places during the night in lines that led to the bleacher entrances. The first few arrived at 8 o'clock Sunday and by midnight the waiting numbered a score. At midnight the line was 200 strong, and as the sun rose there were more than five hundred men in six lines.

There were nearly 20,000 rush seats, five thousand of which were to be had for fifty cents each. The others sold for \$1. It was required that the purchaser enter the grounds immediately and this precluded speculation. With 15,000 grandstand seats disposed of, indications were that the number of spectators would be about 35,000. This would mean receipts of \$65,000.

**Boston a Favorite.**—Boston went into this afternoon's game a strong favorite for the series. The Athletics, one of the fastest teams in baseball, have only one base in two games. This is one department of play in which they plan to take more chances today. But bases cannot be stolen until first base is reached. The Boston pitchers have given few Mackmen an opportunity to reach the first station. Philadelphia's have made but seven hits in two games.

Men on the entire Philadelphia team who has been at bat more than once has an average of .300. The best is Strunk at .326. Such heavy hitters as Eddie Collins and "Home Run" Baker have only one hit each and have averaged respectively .166 and .142. O'Driscoll, McInnis and Barry, all rated as good hitters, have gone without a hit in five or six times at bat. Never in world's series history have so many consistent hitters slumped.

The players of both teams today were discussing a statement by Umpire Byron, who gave decisions on the bases in the game Saturday. The arbitrator said that had Maranville failed to complete the double play which ended the game he would still have declared the side out, because in his opinion, Walsh's collision with Maranville a moment after the latter threw the ball to complete a deliberate attempt at interference. Maranville would say nothing about the matter except "I got the throw away and that's all that I was interested in. After that the game was over."

**First Inning.**—First half—The first pitch of Tyler's was a ball. The next came over for a strike. Murphy doubled down the left field line. O'Driscoll sacrificed Tyler to second. Murphy going out of the box, Tyler tried to pick Collins off first, but his throw was late. Collins stole second. Gowdy's throw being low, McInnis walked. Collins was picked off second, Tyler to Evers. One run, one hit, one error.

Second half—Bush's first pitch struck around Moran's neck for a ball. After pitching three straight balls, Bush pitched over two strikes. Moran then fouled off the ball. Tyler tried to pick Moran off first, but his throw was late. Collins stole second. Gowdy's throw being low, McInnis walked. Collins was picked off second, Tyler to Evers. One run, one hit, one error.

Third Inning. First half—Tyler fouled out to Schmidt. Evers tossed out Murphy at first. Maranville threw out O'Driscoll. No runs, no hits, no errors.

Second half—Both pitchers worked slowly and as the players were inclined to wait them out, the game moved slowly. Moran out. Baker to McInnis. Bush threw out Evers at first. (Continued on Page Eight.)

The box score and further details to today's game will appear in the post-script addition of the State Journal at 5:15 o'clock.

## SPREADING

Cholera Into the Remotest Districts of Austria.

Necessary to Vaccinate Soldiers Against Disease.

EAT HORSE FLESH IN VIENNA

In One Day 200 Animals Brought to Market.

Bakers Make Only "War Bread" and That for Cash.

Venice, Oct. 12.—Cholera is spreading rapidly to the remotest district of Austria.

A case has been discovered at Felkirchir, province of Vorarlberg, near the Swiss frontier. The Austrian troops in Galicia are being vaccinated against the disease.

The cold weather has caught the Austrian soldiers in Galicia unprepared and the authorities are making urgent appeals to the public to contribute warm clothing.

Owing to the increase in the price of flour, the Vienna bakers' association has announced its members will make only big loaves of the so-called war bread and that they will sell only for cash. The consumption of horse flesh in Vienna is increasing rapidly. As many as 200 of the animals have been brought into the market in one day.

The ministry of commerce has issued an order that all letters going to places abroad, without exception, must be left open. This includes letters containing valuables. The entire foreign post has been put under military supervision. Special instructions have been given to Austrian officials on the Italian frontier to prevent the bringing of Italian newspapers. Persons attempting to smuggle papers across will be severely punished.

Hungarian officials who returned to Marmaros-Siget after the Russians departed from that town found, it is said, that the invaders had done no damage to the place. They had neither destroyed property nor molested the inhabitants. The Russian general forbade the inhabitants to give the soldiers intoxicants, permitting his men to receive only food and cigars.

## SHOOT OVER LINE

Shells From Mexican Guns Fall on American Territory.

United States Soldiers Fired Upon and Return Fire.

Naco, Ariz., Oct. 12.—Four shells from the guns of Governor Maytorena fell on American territory during a renewed attack on the Carranza garrison of Naco, Sonora. One of the shells wrecked a large residence. Another damaged property surrounding the United States customs house.

During the engagement, which lasted the greater part of the night, several of Maytorena's Yaqui Indians crossed the boundary line in order to attack the Naco garrison in the rear. They were promptly disarmed. Previously American soldiers had been fired upon and they returned the fire. General Hill, commanding the garrison, lost about eight killed. Maytorena's loss was estimated at not fewer than fifty killed and many wounded.

Two Americans, Lee Hall, a citizen, and Corporal McAllister, Troop B, Ninth United States cavalry, were struck by stray bullets. How was in the head and severely hurt. McAllister was shot through the hand while on sentry duty in the stock yards.

Hill and McAllister make five the total of American victims of the Mexican fire. Trooper Wilson, shot last Monday, died later. Trooper LeRoy Bradford was shot through the chest and severely wounded Tuesday. The same day an unidentified boy was shot through the head.

New appeals for protection were sent to President Wilson and to Governor Hunt of Arizona. Last week a citizens' committee telegraphed an appeal for protection to the president.

Seven of the Yaquis captured by Hill were executed.

## ALLIES ARE READY

Advance of Entire German Front Is Expected.

Probable Battle Line Over 300 Miles in Extent.

Paris, Oct. 12.—The entire German front is about to take the offensive again, according to military strategists today. An attempt by the German army to break through the British defenses of Antwerp to join with the German right wing in a movement toward the sea coast is expected here to be the signal for a general attack on the whole battle line, now extending well over 300 miles.

The German general staff, by this offensive, it is explained, probably hopes to keep the allies sufficiently busy all along the line to prevent the sending of reinforcements to ward off the encircling movement out of Lille. The French war office, however, has scented the trap.

French and British strategists long ago anticipated that Antwerp must fall and started a concentration of forces to defend it. Now British troops, among them, it is reported, many from Canada, are understood to be ready for the new German offensive toward the sea coast.

Weather Forecast for Kansas. Fair tonight and Tuesday; cooler with probably frost tonight, rising temperature Tuesday.

## PARIS PLANS

Aerial Squadrons Are Stationed at Various Points

To Combat Attacks of the German Aviators.

FAST MONOPLANES ARMED

With Quick-Firing Guns to Protect the City.

French Aero Club Put Under Military Control.

Paris, Oct. 12.—The progress of the campaign in the north of France and the fall of Antwerp were forgotten for a moment today by the people of Paris, who spent their time discussing the throwing of bombs on the capital from German aeroplanes, as a result of which three persons were killed yesterday and 14 wounded. At the same time officials adopted measures looking to the prevention of similar acts.

The first thing done was the appointment of General Hirschauer to take charge of the aerial defense of the city. General Hirschauer is an aeronautics expert. He organized last year the aerial branch of the army service. Later a number of deputies met at the call of Deputy Dennis Cochin to consider various means of rendering the city more secure from aeroplane attacks.

The creation of aerial squadrons stationed at cardinal points to be always ready to dash after the air craft of the enemy as soon as they should be signalled approaching the city, the arming of fast monoplanes with quick firing guns, and the telephoning of warnings by residents of the capital to the French Aero club, which is now under military control, were among the suggestions discussed. Finally M. Cochin sent a telegram to Bordeaux urging the immediate adoption of effective measures with the view of reassuring the people.

The news that one of the German bombs yesterday struck the Cathedral of Notre Dame has been communicated to the Vatican. It is reported that the pope exclaimed upon getting the message: "Providence has prevented an outrage which would have shocked the world."

Military critics, commenting today on the movements of the armies in the Apennine region, declare it is worthy of note that Agostino to the east of St. Michel is the route the enemy would take if they sought to withdraw from St. Michel in the direction of Lorraine. Their position in this vicinity means much to them, it is declared.

## HE IS FOUND DEAD

Secretary of State of Illinois Commits Suicide.

His Body Is Discovered Locked in His Garage.

Springfield, Ill., Oct. 12.—Secretary of State Harry Woods, one of the Democratic candidates at the September primary and former operator on the Chicago Board of Trade, killed himself. His lifeless body, with a bullet wound in the forehead and an automatic pistol clutched in his right hand, was discovered this morning in the tool room in a garage in the rear of his residence, 648 South Water street. The ghastly find was made by Mrs. Woods, who had become alarmed at his absence from home since 6 o'clock Sunday morning.

Going to the garage, Mrs. Woods found her husband's bunch of keys locked on the inside. There are two small rooms at the rear of the garage—one a tool room and the other the chauffeur's bedroom. Mrs. Woods called to a neighbor, Walter A. Townsend, an editor of a local newspaper, and together they sought entrance to the building. A door was forced open at the corner of the tool room the body of the secretary was found.

No note of explanation was left by Secretary Woods and the only clue which would give a possible indication for cause of the tragic deed was a bulky bundle of papers showing extensive dealings in grain through a brokerage house.

There is evidence that the secretary carried out his deed. He had taken off his hat and laid it on a bench but did not remove his eye-glasses. An iron bed had been placed against the door leading to the room and all the doors were locked.

Mrs. Woods could assign no motive for her husband's deed. The vacancy in the secretaryship will be filled by appointment by the governor. Besides his widow, Mr. Woods is survived by three daughters, Jessie, aged 8, and Annabel, aged 5, and a daughter by a former marriage, who resides in Chicago.

## BLUE BOOK IS OUT.

Washburn Directory by Edwin Menzingers Is Published.

Washburn's "blue book" are out today. The first installment went so fast that many of the students had to wait until later for their copies of the books. These "blue books" are published each year by the Y. M. C. A. and Y. W. C. A. of the college, and contain a complete directory of faculty, students, college organizations, churches and other matters pertaining to the college. Any Topeka business firms have attractive advertisements in the books.

The books this year are put up in an unusually handy size, and are occasionally much favorable comment. Edwin Menzinger, a junior in the college, had charge of the work.

## EUROPEAN BATTLE GROUND

MOVES NEARER TO ENGLAND

THE UNITED STATES IS PROFITING BY THE WAR

New York, Oct. 12.—While the source of war orders is carefully kept secret the consensus in trade circles is that more than fifty brokers representing the allies are in the market here for supplies of all kinds. Known orders of great size have been placed for woolen blankets, woolen material, shirts, uniforms and underwear, as well as for quantities of towels, sweaters and woolen socks.

Orders for more than one hundred thousand saddle trees have been placed with representatives of factories in Indiana and inquiries are being made for harnesses and leather trappings for use in cavalry and artillery equipments.

Two large manufacturing firms in Baltimore have begun work on five hundred thousand hospital robes, apparently for the allies, and inquiries are made for one million yards of gray flannel for winter shirts. The orders for materials suitable for tents are said to have practically exhausted the supply available for immediate delivery.

Buffalo reports that the truck department of a large automobile concern there is working night and day on rush war orders and plans to have a total of 1,000 men on night shifts shortly. One Detroit plant is working on a rush order for 180 motor trucks to cost \$500,000.

## STATE OF THE WAR

Official Report of the Situation as Issued at Paris.

Declares That Germans Hold Only Suburbs of Antwerp.

Paris, Oct. 12.—The following official communication was given out in Paris this afternoon: "On our left wing the cavalry engagements continue in the region of Labasse, Estaires and Hazebrouck. Between Arras and the Oise, the enemy endeavored to deliver several attacks which failed, notably between Lassigny and Roye."

"Second.—On the center we have made (Continued on Page Two.)

## ITALY IS BUSY

War Preparations Are Continued on Huge Scale.

Army of 100,000 to Come Back From Tripoli.

Paris, Oct. 12.—A Naples dispatch says that 20 Italian transport ships, heavily guarded by an Italian naval fleet, sailed today to bring back the Italian troops now in Tripoli and Cyrenaica. Their place will be taken by a volunteer corps just furnished in Italy.

Although the return of troops from Libya is ostensibly due to the fact that their term of enlistment has expired, the movement is accepted in Italy as another one of the steady preparations being made by the Italian government for eventual participation in the present war. Should Italy take possession of Trieste and Trentino, it is constantly expected, she will do it as she joins with the allies, she will thus have 100,000 more trained soldiers than otherwise, the troops being brought back from Tripoli being still subject to military duty under a general mobilization.

Italy's "precautionary mobilization" now consists of about 500,000 soldiers. These comprise the general military units that would be mobilized in war. It is not likely that with this preparation Italy will defer the mobilization of any more troops until the actual moment that the entire Italian military strength may be called out for active participation in the war.

## IT IS COLD TODAY.

Temperature Lowest Since Middle of April in Topeka.

This was the coldest day at Topeka since the middle of last April. It was the first time in sixteen days that the temperature was below normal. The average for the day was 8 below normal. A brisk 25-mile wind from the northwest held the mercury down. The temperature at 7 o'clock this morning was 48 degrees; at 2 o'clock this afternoon it was 51—it was near-normal weather.

Look out for a heavy frost tonight! The weather man warns the housewives to cover all delicate plants. The quicksilver is expected to drop to within two or three degrees of the freezing point. There may not be a "killing" frost, but if the sky remains clear the tender vegetation is expected to be shriveled. The forecast calls for fair and cold weather tonight with a rise in temperature tomorrow.

The rain at Topeka came in two installments. The first began at 8:30 Sunday night and ended at 2:30. The second spasm was between 1:45 and 2:10 this morning. The first shower netted .21 of an inch of water. This brings the precipitation for the month up to three inches, which is 1.6 inches above normal for October. If no more rain falls between now and November 1 this will be the seventh wettest October on record at Topeka.

The railroad reports indicate that showers were general in the eastern half of Kansas. The hourly readings: 7 o'clock .....48 11 o'clock .....50 1 o'clock .....48 12 o'clock .....50 3 o'clock .....49 4 o'clock .....50 6 o'clock .....49 7 o'clock .....51

Strong reinforcements have landed at Antwerp from Belgium and France. British and Belgian forces are being moved by an assault on the extreme northwestern wing of the German army.

Twenty Italian transport ships are to bring back the Italian troops now in Tripoli and Cyrenaica. Their place will be taken by a volunteer corps. It is believed that this is to ensure that the Italian army will be ready for any possible new assault on the Italian front.

Further advance of Russian troops through Galicia is announced here. The situation in East Prussia is unchanged.

Consumption of horse flesh in Vienna is increasing rapidly. Two hundred animals were brought in the market in one day.

German aeroplanes dropped bombs this morning between two railroad trains just leaving the station in Paris. The bombs failed to explode.

Following the successful occupation of Antwerp, it is anticipated that the immediate removal of the German offensive will begin in France.

The greater part of the Belgian and British troops, defenders of Antwerp, have arrived at Ostend, avoiding the encircling German movement.

At least 800 British and Belgian troops, the rear of the retreating Antwerp army, have been cut off by the Germans and are surrounded in Belgium.

An aerial squadron for the defense of Paris against German aeroplanes was organized today. First morning's attack with gas. Being gas are among the equipment.
